## About KPMG Audit Committee Institute- Communicating with Audit Committees in over 40 countries worldwide since 1999.

The KPMG Audit Committee Institute has become a valuable resource for thousands of audit committee members and directors around the world, keeping boards and audit committees informed of developments impacting their organizations.

### About KPMG Lower Gulf's Audit Committee Institute

KPMG Lower Gulf's Audit Committee Institute (ACI-LG), is a forum which encourages professional development and networking among audit committee and board members in the region. The ACI-LG aims to provide guidance and the necessary resources, including practical insights and peer-exchange opportunities, to audit committee and board members. The main objective of this forum is to assist strengthening oversight of financial reporting and enhance audit quality while reflecting on the array of challenges facing businesses today – from risk management and emerging technologies to strategy and global compliance.

Through ACI-LG, KPMG aims to organize events exclusively for its members, covering topical issues in the areas of regulation, risk, compliance and reporting. The Institute aims to deliver practical, bespoke training to audit committee and board members. Additionally, members will be given access to the ACI-LG website – a library of reference material, including publications on topical and emerging issues.

The ACI-LG forum will be chaired by a Board Advisory Committee (BAC), comprising a maximum of four senior regional business leaders as well as representatives of the KPMG Lower Gulf firm.

From time to time, BAC members intend to provide insights and direction to the ACI-LG agenda, and therefore assist in strengthening corporate governance in the region.
